

Pregnancy and Birth Timeline

A couple have sex / a doctor helps to join sperm & egg (In vitro Fertilisation)

**Fertilisation:
a sperm joins
with an OVUM
(egg)**

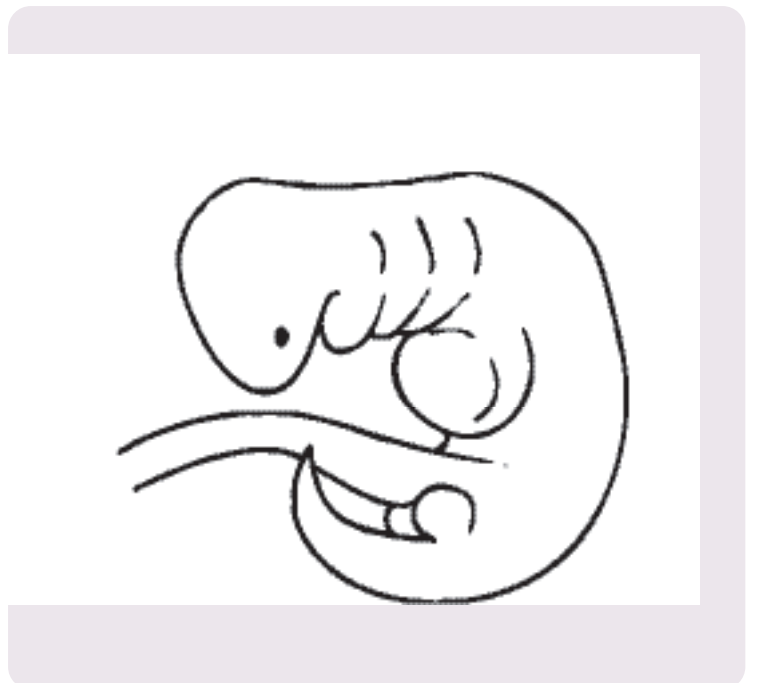

Pregnancy and Birth Timeline

A fertilised OVUM (egg) travels to, and implants into, the wall of the UTERUS

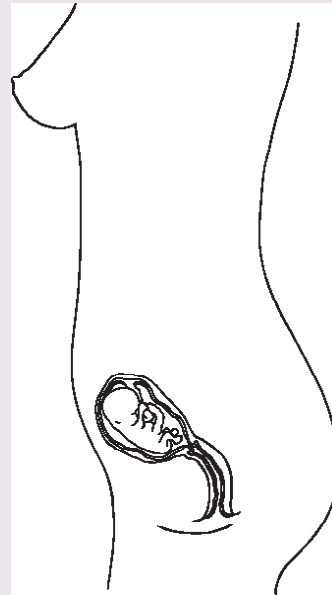

The PLACENTA and EMBRYO start to grow

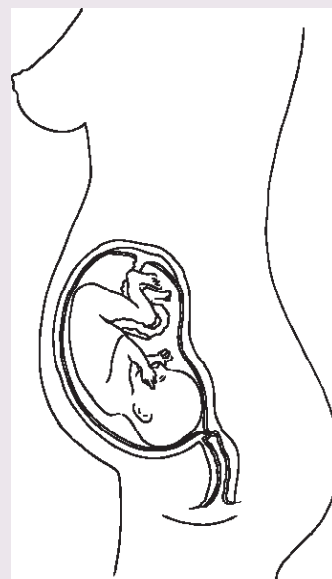

Pregnancy and Birth Timeline

The EMBRYO starts to make tiny movements that can't be felt by the pregnant person

The FOETUS grows hair, hears loud noises and the pregnant person can feel movements

Pregnancy and Birth Timeline

The FOETUS keeps growing until BIRTH

LABOUR starts

Pregnancy and Birth Timeline

After about nine months the baby is born

The PLACENTA is delivered
