

Maeve

Hi I am Maeve, I am 15. I'm in love with Otis. Otis wanted to have sex from the start, but I wasn't really sure. I was worried about STIs and getting pregnant. We did end up having sex 3 months ago and it's been OK. After the first time my period was late. I asked a few people, but they weren't much help. I got worried and went to Dr Yousef at a bulk billing clinic. They couldn't give me the pill without my Mum knowing. Otis said that pulling out would be fine anyway. Now I'm pregnant.

Otis

Hi I'm Otis. I'm 18 years old. I've been seeing Maeve for a few months. I thought she really liked having sex with me. I asked so many times, so I thought we only had sex when she was ready. I told her I would look after her. I thought pulling out meant she wouldn't get pregnant.

Remi

Hi I'm Remi. I'm Meave's big sister. I think Meave is stupid to be letting Otis have sex with her, because all boys are just after your body. She should just say 'No!'".

Meave told me she has tried saying 'No', but Otis doesn't really listen and keeps insisting.

Frankie

Hi, I'm Frankie, I'm Meave's best friend. She told me about Otis. I kind of liked him. They are great together because Maeve is really mature and Otis is a bit older. I told Meave that young people can't really get pregnant. Especially if they don't have sex that much.

Doctor Yousef

I'm a doctor at a bulk billing clinic. Meave came to see me. I had never met her before. I gave Meave the advice that she should bring her parent in with her to be able to get a prescription for contraception. I was expecting her to come back with her parent or guardian. Maeve is under the age of consent and I wanted her family to know that she was sexually active.

Jean (Maeve's mother)

I'm Meave's mother. Meave told me she was in love with Otis. I thought she was being silly. She's too young to really know what love is. We have never really talked about contraception or sex before. I didn't want her to think it was a good idea. At her age she should be focussing on her schoolwork. I thought it was illegal at her age.
